

Mitsubishi MU-2 Series Aeroplanes

AD/MU-2/46

Anti-Ice and De-Ice Systems

5/90

Applicability: Model MU2.

Requirement: Carry out an operation check of the airframe and engine anti-ice and de-ice systems in accordance with Chapter 9 of the MU2 Maintenance Manual.

Compliance: At each 100 hour maintenance interval.

Background: A recent accident investigation revealed that ice accumulation may have been a contributing factor. A surveillance of the M2 fleet revealed an unacceptably high incidence of anti-ice and de-ice systems unserviceability.
