AD/P68/7

Ignition Switch Guard - Modification

9/2008

Requirement: CANCELLED.

This AD is cancelled on 28 August 2008.

Background: This unique Australian AD specified once-only modification of the overhead switch panel to ensure the sun visors cannot interfere with the magneto switches. The AD was raised in response to an incident reported in an Australian aircraft. Compliance was required within 100 hours time in service after February 1978. The AD is no longer required.
