

Piper PA-23 (Apache and Aztec) Series Aeroplanes

---

**AD/PA-23/17      Goodrich Wheel Assembly G-3-787 - Inspection      NK**

Applicability:      All models equipped with Goodrich G-3-787 wheels.

- Requirement:      1. Remove wheels and tyres and inspect as follows:
- (a) Inspect the flange area of both wheel halves by a penetrant inspection method. Cracks may appear on either the inside or outside surface of the flange.
  - (b) If cracks are present in the flange area remove the defective wheel half from service; or
2. BF Goodrich SB No. 102; or
3. FAA AD 58-22-3.

Compliance:      At intervals not exceeding 100 hours time in service and at each tyre change.
