
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/PA-23/53.

Piper PA-23 (Apache and Aztec) Series Aeroplanes

AD/PA-23/53

Fuel System - Placard Installation

2/2009

Requirement: CANCELLED.

This AD is cancelled on 12 February 2009.

Background: This unique Australian AD specified installation of a placard adjacent to the wing-tip fuel tank filler points in aircraft equipped with Met-Co-Aire wing tip fuel tanks. Compliance was required within 100 hours time in service after June 1972. This AD was not based on a Piper service document or USA AD. The AD is no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

22 December 2008
