Carburettor Nozzle

4/87

CANCELLED.

Background: The requirement to fit fuel nozzle P/N 47-813 in lieu of atomising nozzle P/N 47-828 to carburettors, 10-5009N, A10-5009N, 10-5135 and A10-5135 as a means to improve carburettor icing resistance can no longer be substantiated. This Directive is therefore cancelled.
