AD/PA-30/15 Flexible Hose Assemblies - Modification 13/2008

Requirement: CANCELLED.

This AD is cancelled on 18 December 2008.

Background: This unique Australian AD specified inspection of engine-compartment flexible hose assemblies to ensure they meet a specification for fire-resistance. The AD was not based on a Piper service document. Compliance was required within 100 hours time in service after December 1971. The AD is no longer required.
