
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/PA-34/1.

Piper PA-34 (Seneca) Series Aeroplanes

AD/PA-34/1 Compass Installation - Inspection for Accuracy 11/2008

Requirement: CANCELLED.

This AD is cancelled on 23 October 2008.

Background: This unique Australian AD specified inspection of the primary magnetic compass to determine its deviation when IFR electrical loads are operated on battery power with both alternators inoperative. This AD was not based on a Piper service document. Compliance was required before issue of a Certificate of Airworthiness. This maintenance action no longer warrants an AD.

Charles Lenarcic
Delegate of the Civil Aviation Safety Authority

11 September 2008
