
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/SWSA226/5.

Fairchild (Swearingen) SA226 and SA227 Series Aeroplanes

AD/SWSA226/5

**Wing Centre Section Improved
Venting - Modification**

6/2009

Requirement: CANCELLED.

This AD is cancelled on 4 June 2009.

Background: This AD, raised in 1972 against Swearingen Service Bulletin (SB) SB 57-30-3021, required installation of vents and vent holes to improve the wing centre section venting. Compliance was required within 100 hours TIS or 3 months, whichever occurred first, after 31 July 1972.

As all affected aircraft would have been modified long ago, this AD is no longer required.

David Villiers
Delegate of the Civil Aviation Safety Authority

24 April 2009
