

Fairchild (Swearingen) SA226 and SA227 Series Aeroplanes

**AD/SWSA226/42
Amdt 1**

**Prohibition of Flight into Known
Icing Conditions - Placard**

12/82

- Applicability: Models SA227-AC, SA227-AT, SA227-TT, not modified in accordance with SA227 Service Bulletin A61-002 or Service Bulletin 30-001.
- Requirement: Install a placard, minimum 1/4" lettering on the instrument panel in plain view of the pilot stating "Flight into known icing conditions prohibited".
- Compliance: Forthwith.
- Background: Overseas operational experience indicates that propeller de-icing is not adequate. FAA Directive 82-05-05 withdraws approval for operation in icing conditions.
