

Aerospatiale (Socata) TB9 and TB10 (Tobago) Series Aeroplanes

---

**AD/TB10/4**                              **Wing Flap Deflection - Modification**                              **5/82**

Applicability:    All TB10 aircraft from S/No. 1 up to and including S/No. 239.

Document:        Rallye TB SB No. 10 GR.27.17.

*Note: Upon incorporation of this modification aircraft flight manuals should have amendment 4 incorporated and the contents of amendment 3 removed.*

Compliance:     Before certification.

Background:      In order to maintain adequate longitudinal stability with full flap extended, maximum flap extension has been reduced from 32o to 25o30'. Additionally the forward C.G. limit is amended to 11% M.A.C. or .949m.
