

Aerospatiale (Socata) TB9 and TB10 (Tobago) Series Aeroplanes

AD/TB10/16 Lower Engine Cowl Carburettor Air Supply 3/91

- Applicability: All TB9 & TB10 series aircraft from S/No's 1 to 944 inclusive fitted with lower cowling carburettor air supply.
- Requirement: Action in accordance with the technical requirements of DGAC AD 90-240 (A).
- Compliance: As specified in the Requirement Document with revised effective date of 31 March 1991.
- Background: The lower engine cowl 'NACA' fitting can be damaged if the supply hose clamp is overtightened. If the fitting is damaged the intake hose could come loose possibly restricting engine operation.
