AD/TSA-600/37

Lower Wing Skin and Spar Caps

6/2009

Requirement: CANCELLED.

This AD is cancelled on 4 June 2009.

Background: This unique Australian AD specified periodic inspection of the lower wing skin and accessible areas of lower spar caps in the area surrounding the MLG cutout. The inspection was not based on a manufacturer's service document. Compliance was required at each maintenance release inspection. The AD was issued in 1987 and is no longer required.
