Nacelle Fuel and Oil Pressure Hoses

6/2009

Requirement: CANCELLED.

This AD is cancelled on 4 June 2009.

Background: This unique Australian AD specified a once-only inspection of all hoses in the engine nacelle in accordance with Aerostar SB No. 600-124. The inspection was required within 100 hours time in service, or at the next annual inspection, whichever occurred first, after December 1993. The AD is no longer required.
