

Casa 212 Series Aeroplanes

AD/CASA/15

Flight Idle Stops

**9/92
TX**

Applicability: All model C-212- series aircraft.

Requirement: Action in accordance with the technical requirements of FAA Telegraphic AD T92-13-51.

Note: CASA SB 212-76-07 provides service data on the backup blocking system.

Compliance: Within 48 hours from 24 June 1992. Thereafter reinspect at intervals not exceeding 300 hours time in service.

Background: During investigation of a fatal accident a backup power lever flight idle stop was found to be inoperative. This directive introduces a functional test of the system.
