AD/COOL/1

**Stewart Warner Oil Coolers - Inspection
and Replacement**

NK

Applicability: Stewart Warner oil coolers:

| | |
|-------------|-------------------------|
| Model 8406J | with S/Nos. 101 to 1500 |
| 10599A | with S/Nos. 101 to 700 |
| 10568B | with S/Nos. 101 to 579 |
| 10578B | with S/Nos. 101 to 634 |

Requirement: Inspect the engine oil cooler for applicability within the affected model and serial number range.

Any affected cooler shall be retired from service and replaced with a serviceable cooler not of the subject serial numbered range.

Note: The oil coolers are fitted to, but not necessarily limited to, the following aircraft:

- 1. 1976 and 1977 Model Cessna 172 and 177.*
- 2. 1976 Model Cessna 177RG.*
- 3. Consolidated Aeronautics Lake LA-4-200.*
- 4. Grumman American Model AA-5A and AA-5B.*
- 5. Mooney M20 Series.*

Compliance: Within 100 hours time in service after 30 November 1976.
