

DHC-6 (Twin Otter) Series Aeroplanes

AD/DHC-6/61
Amdt 1

Wing Main Spar Lower Cap Angles

7/91

Applicability: All models.

Requirement: Action in accordance with the Technical Requirements of Transport Canada AD CF-87-02, R1.

Note: De Havilland SB 6/492 Revision A refers.

Compliance: As specified in the Requirement Document with a revised effective date of 11 July 1991 for Australian registered aircraft.

Background: Exfoliation corrosion in the main spar cap lower angles has been reported on older aircraft. Amendment 1 is raised to reflect a revision of the related Country of origin AD which was issued to remove flight hour limitations from the compliance time requirements.
