

Mikoyan and Gurevich (MiG 15) Series Aeroplanes

AD/MiG 15/2

Engine Lubricating Oil

**10/93
DM**

Applicability: All Lis 2 and Lis-2SB engines fitted to SB Lim-2 (MIG 15UTI) aircraft.

Requirement: Withdraw from service those engines which have been operated while using synthetic lubricating oil such as oil manufactured to MIL-L-23699. These engines may be returned to service only with the explicit and specific approval of the engine manufacturer or the Authority.

Compliance: Before further flight after 14 August 1993.

Background: Synthetic lubricating oil is reputed to have been used in some engines in contravention of manufacturers data.
