

Propellers - Fixed Pitch

**AD/PFP/9
Amdt 1**

**Propeller Mounting Bolts - Inspection
and Torque Check**

NK

Applicability: All McCauley and Sensenich fixed pitch metal propellers.

Requirement:

1. Inspect propeller mounting bolts by magnetic particle method whenever the propeller is removed from the engine for reconditioning or repair.
2. The propeller mounting bolt torque shall be checked at intervals not exceeding 500 hours time in service.

Compliance: As above.
