

Transavia PL 12 Series Aeroplanes

---

**AD/PL 12/17                      Pilot Compartment/Restraint - Modification                      9/78**

Applicability:    All PL-12 Series.

Requirement:    Modify fuel pump switch and hopper door level installations to improve in-flight accessibility according to a scheme approved by the Secretary, or modify the pilot's safety harness by fitment of an inertia reel satisfying the requirements of ANO 108.42.

Compliance:    Before 1 October 1979.
